

Your green living one-stop-shop
Serving both residential and commercial customers

How Green Pathways will help you:

Solar Water Heating

- Assess the viability of your prospective site/location*
- Assess your hot water usage*
- Assess the feasibility of a solar water heating system*
- Size system and determine type of system*
- Obtain credible quotations*
- Post installation support*

Water Conservation

- Evaluate your water usage, and identify which items or activities are excessive water consumers*
- Offer candidate solutions, suppliers and/or installers*
- Assist in obtaining credible quotations*
- Assist in evaluating the quotations and acquisition*
- Post installation support*

Your first step begins with a Green Pathways Energy Use Evaluation
