

***Your green living one-stop-shop
Serving both residential and commercial
customers***

The Pathways System

The Pathways system has been created to help you in your quest to combat climate change, conserve and be more efficient in your use of energy and other resources, be a green power generator and have a greener lifestyle overall.

Our aim is to demystify and make it easier for you to achieve your personal or business green living goals.

Workshops and Seminars

From time to time Green Pathways will organize and present workshops and seminars on topics and subjects relating to our business activities. These will help you become more aware or better informed.

Please let us know what topics and subjects you would wish us to make available since Green Pathways wants to be responsive to your needs.

Your first step begins with a Green Pathways Energy Use Evaluation
